

LAND USE CONTROL BOARD RECOMMENDATION

CASE #: S.U.P. 08-207 CC

At its regular meeting April 10, 2008, the Memphis and Shelby County Land Use Control Board held a continuation of its public hearing on the following application, requesting a special use permit on the property described as follows:

LOCATION: North side of Independence Rd; ±250 ft. east of Woodstock-Cuba Road

OWNER OF RECORD: Deanna Carter

LESSOR/APPLICANT: Global Tower, LLC

PROPERTY SIZE: 10,000 sq. ft. leased parcel in an 11.97-acre tract

EXISTING ZONING: Floodway (FW) and Agricultural (AG) District

REQUEST: 195-foot CMCS monopole cell tower

Gloria Allmond, Baran Telecom, Inc., spoke in support of the application as the applicant's representative. She indicated: 1) that she had arranged and conducted a balloon test, as requested at the March 13 public hearing; 2) that she had brought this test to the attention of neighbors in the vicinity; and to her knowledge none were currently opposed; and 3) that a Ms. Guinn, who had spoken in opposition on March 13, specifically indicated a preference for the siting proposed by the applicant as alternative to the siting recommended by OPD.

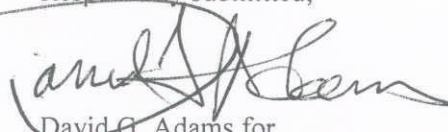

No one appeared in opposition at the scheduled 10 AM time for the April 10 hearing, which had been scheduled for the morning session due to an unusually light agenda. However **Betsy Guinn of 2290 Independence Rd.** appeared at the customary 1 PM hour and stated that she had been not aware of the 10 AM meeting time and that she continued to be in opposition --- primarily due to the view of the tower from the property upon which she resides. Her prepared remarks are included in Exhibit B of the staff report. She confirmed that she preferred the applicant's siting to the siting that had been recommended by OPD.

The Land Use Control Board reviewed the special use permit application and the report of OPD, including a decision by staff to support the approval of the application, based on the lack of opposition expressed at the public hearing and on the information provided by Ms. Allmond.

A motion was made and seconded to **approve** the application as stated above. This motion **passed** by a unanimous voice vote.

The Board concurred with the conclusions of the staff as expressed in the staff report.

Respectfully submitted,

David G. Adams for
Mary L. Baker, Deputy Director
Office of Planning and Development

SITE PLAN CONDITIONS

S.U.P. 08-207 CC

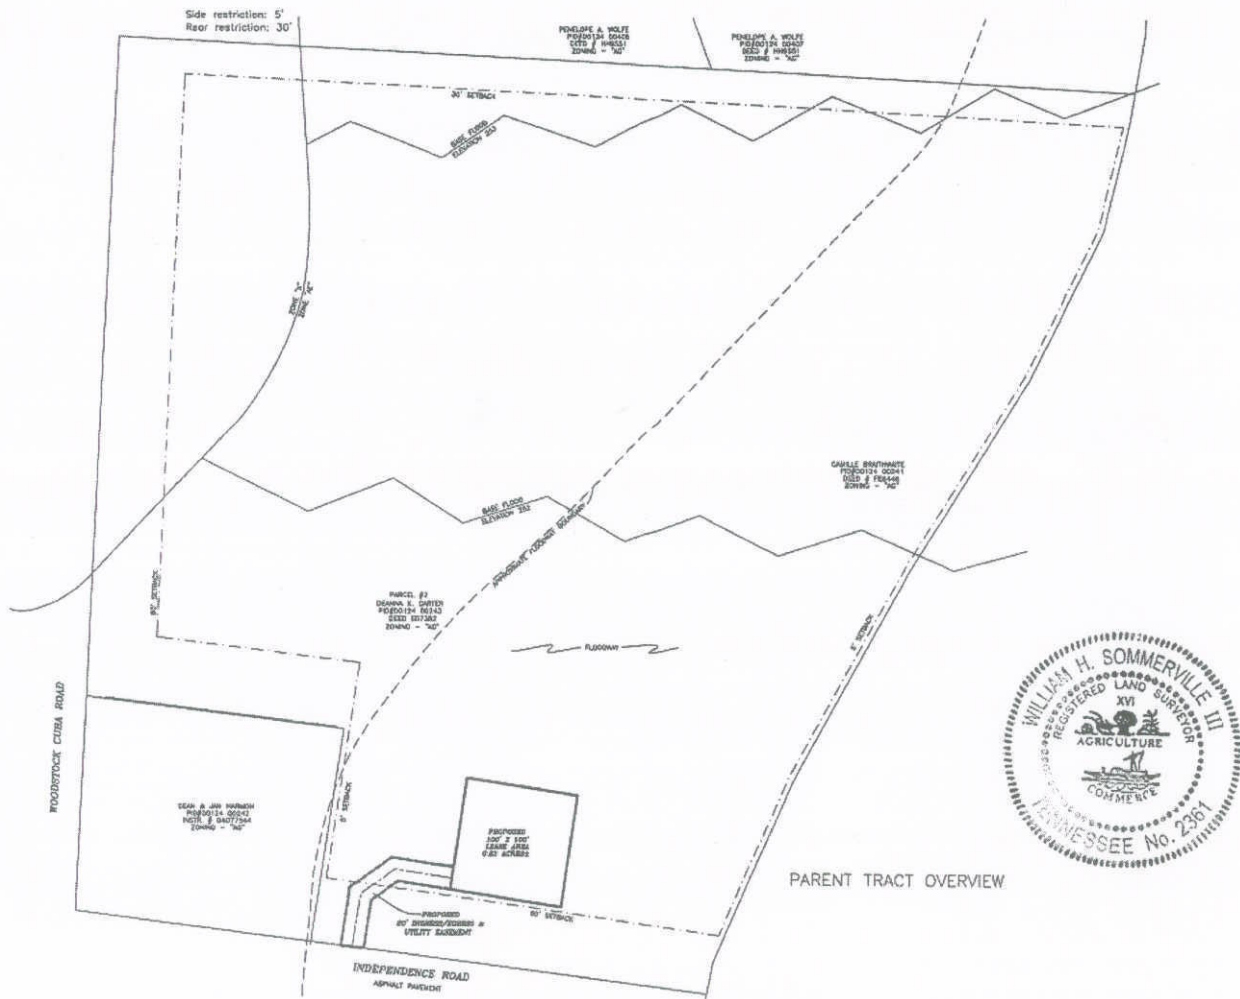

CMCS CELL TOWER AT 7040 HIGHWAY 70

As Recommended by the Land Use Control Board

April 10, 2008

A Special Use Permit is hereby granted to the applicant **Global Signal, LLC** to allow construction and operation of a Commercial Mobile Communications Service (CMCS) Tower and ancillary facilities as specified below on the 11.97-acre property described in instrument number EG7382 as recorded in the Shelby County Register's Office, also known as 7040 Woodstock-Cuba Road in accordance with a site plan approved by the Office of Planning and Development and with the following supplemental conditions.

1. The maximum tower height shall be one-hundred ninety feet (195'), subject to Item 2 below, and the tower will incorporate the "slick stick" design with flush-mounted antennae.
2. The tower shall be free of all lighting, including aircraft hazard lighting, and shall be designed so as to avoid the necessity of such lighting under currently federal regulations.
3. The tower and related equipment shall be removed within one-hundred eighty (180) days of ceasing operations.
4. The tower shall be constructed within two (2) years of approval by the Shelby County Board of Commissioners. The Land Use Control Board may grant a time extension through the applicant filing a correspondence item application with public notice sent to all property owners within five-hundred (500') feet of the property.
5. The tower shall be structurally designed to accommodate at least six (6) additional sectorized arrays.
6. A security fence, six feet (6') or more in height shall be constructed around the tower and associated equipment.
7. The tower operator shall install and maintain perimeter screening as follows: The site perimeter shall be landscaped with at least one row of deciduous trees, not less than two inches in diameter, measured three feet above the grade, spaced not more than 20 feet apart within 25 feet of the site boundary, as well as at least one row of evergreen trees and shrubs, at least five feet high when planted and spaced not more than five feet apart to form a solid shrub screen and within 40 feet of the site boundary. An equivalent alternative may be substituted with the approval of the Office of Planning and Development.
8. The access drive shall have an all-weather surface with asphalt pavement for the first 50 feet from Independence Road.
9. The location and design of the driveway access to Independence Road shall be subject to the review and approval of the County Engineer including the construction of any culverts that may be needed.
10. The location, design and construction of this tower shall be reviewed and approved by the County Engineer with respect to the issues identified in subsection D of the Floodway District regulations in Section 25 of zoning regulations. [Note: recommended by OPD staff subsequent to LUCB action; reflects siting preferred by applicant]

Note: Valuations based on "rule of thumb" data provided by the Assessor's Office several years ago. The incremental valuation is taxed through the State Comptroller's office.

Note: Road traffic generated by a cell tower is minimal except during the initial construction and the addition of collocating antennae. A 75% reduction in the standard allocation for debt service on road construction would result in a zero net impact, based on these estimates.
